EXPERIENCE

Analyst / Full Stack Developer

Capgemini Technology Services India Limited (Feb/24 - Present)

- Contributed to the **maintenance of internal tools** using **SQL**, ensuring reliability and performance in **client-facing environments**, while implementing bug fixes and minor feature enhancements.
- Collaborated with **cross-functional teams** and gained hands-on experience with **production systems**, improving skills in **debugging, documentation, and stakeholder communication**.

Freelance Website Developer

Horizon Ventures Pvt Ltd – (Sep/23 - Jan/24)

- Developed and deployed a **responsive SPA** using **React.js** for an Environmental Consulting firm, showcasing their services with smooth navigation and clean UI/UX.
- Handled the project **end-to-end** — from requirements to deployment — with **reusable components, cross-device compatibility, and Basic SEO**.

PROJECTS

GenMail – AI Email Assistant (Web + Chrome Extension) |
Spring Boot, React, Gemini API, Chrome Manifest V3 [\(Github\)](#)

- **Developed** a full-stack AI email assistant with both web and Chrome extension interfaces, enabling users to generate **context-aware email replies** directly **within Gmail**.
- Engineered **dynamic UI injection** beside Gmail's native "Send" button using Chrome Manifest V3 and content scripts, **ensuring** seamless integration without disrupting user workflow.
- Integrated **Gemini LLM** via Spring Boot backend to fetch, clean, and **inject ready-to-send** replies into the Gmail compose box, **reducing** email response time **by up to 80%** and saving **~3+ hours/month** for regular users.

StaffEase – Employee Management System | Spring Boot, React, MySQL

- **Built** a full-stack employee management system using Spring Boot and React, **leveraging** Spring Data JPA and MySQL for efficient employee and HR data management.
- Integrated a **custom resume parser to automate onboarding and streamline HR workflows, reducing manual effort by over 60%**.

TECHNICAL SKILLS

PROGRAMMING LANG |

Java • JavaScript • C++ • Python.

FRONTEND FRAMEWORKS|

React.JS • Redux • Tailwind CSS •
React Router • HTML • CSS

BACKEND FRAMEWORKS |

Spring Boot • Spring MVC • Node JS
• Express JS

DATABASES | MongoDB • MySQL

• Firebase

SECURITY and AUTH |

Spring Security • JWT • OAuth
• Role- Based Access

CI/CD & DevOps| Git & GitHub •

Docker • GitHub Actions • Vercel

EDUCATION

B. Tech in Computer Science Engineering

CGPA: 7.67

PRESIDENCY UNIVERSITY

Aug 2019 – Jul 2023

12th Standard

Seshadripuram PU College(Main)

May 2017 - Mar 2019 78%

CERTIFICATIONS

- Spring Boot Certification(Udemy)
- AWS Generative AI
- Java Programming and Software Engineering (Duke / Coursera)
- AWS cloud practioner
